

Jimena Dupré

Creative Designer

Hi!

Let me briefly introduce myself.

My name is Jimena. **I am a competent and creative graphic designer** with more than 10 years working experience in branding, marketing and corporate communication. In addition, I have a high amount of expertise in offset and digital print, as well as in web design.

On February 26, I successfully completed the **CAS Digital Typography (UI/UX Design)** at the Zurich University of the Arts and I am currently completing the follow-up **CAS in Type and Brand**, which I will complete in January 2023.

With my skills and experience in UI/UX design, I am able to work from design and prototyping to handover to software developers of websites, applications and other digital publications.

I also hold a **Masters degree in InterMedia** from the University of Applied Sciences Vorarlberg in Austria and I have a certificate diploma in **Web design & development** from SAE Institute in Zurich.

I hope you will enjoy the visual experience of my journey as a graphic designer!
